## Israel's Operation Swords of Iron Update March 13, 2024

*JINSA's [Israel at War](#) webpage is a dedicated resource for analysis, commentary, webinars, and media coverage about the 10/7 attacks and the ensuing Israel-Hamas conflict. JINSA will release the Swords of Iron Update on Mondays, Wednesdays, and Fridays. An update with the latest information and analysis about the war is below.*

### Analysis

- The Iran-backed Houthis in Yemen have continued their escalation against ships in nearby waters, despite repeated U.S. strikes to destroy Houthi capabilities in Yemen. In recent days, U.S. partners have shot down Houthi drones more frequently as part of the European Union's Aspides mission to protect Red Sea shipping.
- Hezbollah's escalation of rocket salvos against Israel, including as many as [100 rockets](#) fired on March 12, suggests that the terror group is especially sensitive to recent IDF strikes deep into Lebanon as opposed to the country's south, which is where the bulk of the current fighting occurs.
  - » Hezbollah's March 12 attacks mark the largest daily number of projectiles that Lebanon-based terrorists have fired into Israel since October 7, according to JINSA data.
  - » JINSA Policy Analyst Zac Schildcrout has [argued](#) that deterring further Hezbollah attacks "largely requires convincing Hezbollah that the United States will back Israel in, and possibly even enter, a full-scale war should one become necessary to restore security for Israel's northern residents."
- Reports that, if Israel initiates a ground operation in Rafah, President Biden is considering conditioning U.S. military assistance to Israel, restricting Israel's use of U.S. weaponry, and ending U.S. diplomatic support for Israel at the United Nations further indicate the growing tensions between the Biden administration and Israeli government.

  - » When asked about the lack of UNRWA funding during a State Department briefing, a senior State Department official said, “we have a pause on our funding to UNRWA until the investigation is complete. That doesn’t mean we are not providing funding for humanitarian needs in Gaza and the West Bank. [This budget includes] a significant commitment [to Palestinians living there]. On the other hand, nothing can also justify the collective punishment of the people in Gaza, which has left tens of thousands of Palestinians killed and injured.”
  - » She added, “I must also state that I’m horrified by the injustice of women and children being killed in Gaza by countless bombs and gunfire, and I’m also outraged by the level of deaths and pain of entire families, often generations wiped out.”
